

Make your own bunting

Step 1: Cut this triangle out to use as a template.

Step 2: Find a piece at least 21cm x 60cm. An old pillowcase works well. If you don't have any spare fabric, paper or card will work.

Step 3: Draw around this triangle on the fabric or paper, aligning the point with the top

Step 4: Flip the triangle on its short edge and draw around it again to form a diamond.

Step 5: Carefully cut the diamond out using scissors.

Step 6: Decorate the bottom of the diamond with a design of your choice.

Step 7: Rotate the fabric 180 degrees so the blank point is pointing towards you and decorate the other side of your bunting.

Step 8: Repeat until you have a few diamonds.

Step 9: Lay all of your completed diamonds decorated side down on the floor or table. Take on long piece of string or ribbon and lay it across the centre of the diamonds.

Step 10: Fold the top section of each diamond over and secure using glue or tape.

You will need:

- Scissors
- Fabric or paper
- Decorations (eg sequins, pencils, paint)
- Ribbon or string
- Glue or tape
